REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest a method of retrieving data stored in cells of a storage material having an inhomogeneous absorption having an inhomogeneous linewidth $\Delta\nu_i$, the method comprising: directing a reference beam of electromagnetic radiation to the storage material, so as to generate a reconstructed data beam; combining the reconstructed data beam with a local oscillator beam; and **spatially-spectrally sweeping the reference beam along a reference spatial-spectral trajectory, wherein data is retrieved from the cells of the reference material.** (bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
